

27th March 2024

Dear Parents & Carers

Thank you to all parents/carers that were able to attend last night's Year 11 revision evening.

The session aimed to equip you with valuable insights and resources to support your child through the challenging period of GCSE exams. Attending last night's meeting reinforced the importance of the collaboration between home and school in ensuring the best outcomes for students.

In the coming months, as your child continues with the journey of revision your guidance and support will be invaluable to them and your encouragement can instil confidence and motivation, enabling them to tackle the exams with determination and resilience.

We are here to support them and you throughout this time and together, we can make a significant difference to your child's academic journey and ensure their success.

Last night's presentation is attached for your reference, please use this as a reminder of the valuable insights, tips and strategies to help facilitate your child's effective revision at home.

Please be aware that only students are able to login into the student room. This space can only be accessed by students using their school email and password.

Kind regards

Mr P Seward

Assistant Headteacher
